6. Resolution on the approval of the remuneration report for the 2022 financial year prepared and audited in accordance with Section 162 AktG

Pursuant to Section 162 (3) AktG, the remuneration report was examined by the auditors to determine whether the legally required disclosures pursuant to Section 162 (1) and (2) AktG have been made. The report on the audit of the remuneration report is attached to the remuneration report.

The Supervisory and Executive boards propose that the remuneration report for the 2022 financial year, prepared and audited in accordance with Section 162 AktG, be approved.

The remuneration report is reproduced after the agenda and is available on our website at www.hannover-re.com/286045/2023-annual-general-meeting from the time when the Annual General Meeting is convened. Furthermore, the remuneration report will also be accessible on the Shareholder Portal during the Annual General Meeting.

7. Resolution on the addition to Article 15 of the Articles of Association of an authorization of the Executive Board to hold a virtual Annual General Meeting

The Act on the Introduction of Virtual Shareholders' Meetings of Public Stock Corporations and the Amendment of Co-operative and Insolvency and Restructuring Law Provisions (Bundesgesetzblatt I No. 27 2022, p. 1166 et seq.) has made the virtual shareholders' general meeting a permanent provision in the German Stock Corporation Act (AktG). Pursuant to Section 118a (1) Sentence 1 AktG, the Articles of Association may provide or authorize the Executive Board to provide that the Annual General Meeting be held as a virtual Annual General Meeting without the physical presence of the shareholders or their authorised representatives at the location of the Annual General Meeting.

Such authorization of the Executive Board is to be included in the Articles of Association of Hannover Rück SE, whereby use is not to be made of the maximum possible term of five years

provided for by law. Instead, initially only an authorization to hold virtual Annual General Meetings is to be approved for a period of two years after registration of the amendment to the Articles of Association. For future Annual General Meetings, a separate decision is to be made in each case, taking into consideration the circumstances of the individual case, as to whether to make use of the authorization and hold an Annual General Meeting as a virtual Annual General Meeting. The Executive Board will make its decisions taking into consideration the interests of the company and its shareholders, and in doing so will pay particular attention to safeguarding shareholders' rights as well as aspects of participants' health protection, time and costs, as well as sustainability considerations.

The Supervisory and Executive boards propose that the following resolution be adopted:

The heading of Section 15 of the Articles of Association is to be reworded as follows:

“Section 15 Place, Convening, Ordinary and Virtual General Meeting of Shareholders”

Section 15 of the Articles of Association is to be supplemented by the following new paragraph 4:

“(4) The Executive Board shall be authorized to provide for the Annual General Meeting to be held without the physical presence of the shareholders or their authorised representatives at the location of the Annual General Meeting (virtual Annual General Meeting). The authorization shall apply to the holding of virtual Annual General Meetings for a period of two years after this provision of the Articles of Association has been entered in the company's commercial register.”

8. Resolution on the amendment of Section 16 of the Articles of Association to enable Supervisory Board members to participate in a virtual shareholders' meeting by means of video and audio transmission

In principle, the members of the Supervisory Board attend the Annual General Meeting in person. However, pursuant to Section 118 (3) Sentence 2 AktG, the Articles of Association may provide for certain cases where members of the Supervisory Board may participate in an Annual General Meeting by means of video and audio transmission. Use is to be made of this option in the event of a virtual Annual General Meeting pursuant to Section 118a (2) Sentence 2 AktG, including in order to give the members of the Supervisory Board sufficient flexibility. If it is necessary for all or individual members of the Supervisory Board to interact directly at the Annual General Meeting, this will be made possible by directly connecting these Supervisory Board members by means of the two-way communication provided for.

For this reason, the Supervisory and Executive boards propose that the following resolution be adopted:

Section 16 of the Articles of Association is to be supplemented by the following new paragraph 6:

“(6) In the event of a virtual Annual General Meeting, the participation of the members of the Supervisory Board may be effected by means of video and audio transmission; however, this shall not apply to the Chair of the meeting in the meaning of Section 17 (1) of the Articles of Association.”

9. Resolution on the amendment of Section 17 (3) of the Articles of Association

In order to ensure that the Annual General Meeting is conducted properly, the Articles of Association already provide, as is now standard market practice, that the Chair of the meeting may impose reasonable time limits on the shareholders’ right to ask questions and speak at the Annual General Meeting. In a clarifying, formal amendment to the Articles of Association, this right of the Chair of the meeting is also to be established for the right of follow-up questions provided for in the law in certain cases.

The Supervisory and Executive boards therefore propose to amend and reword Section 17 (3) of the Articles of Association as set out below.

Section 17 (3) of the Articles of Association is to be reworded as follows (addition underlined only in the following presentation):

“(3) The Chair of the meeting may set appropriate time limits on the shareholders’ right to ask questions (including the right to follow-up questions) and to speak. In particular, the Chair of the meeting shall be entitled to set a reasonable time limit at the beginning of the Annual General Meeting or during its course for the entire course of the Annual General Meeting, for the individual agenda item or for the individual speaker.”

The currently valid Articles of Association can be accessed via our website at www.hannover-re.com/286045/2023-annual-general-meeting. They will also be accessible there during the Annual General Meeting.

Remuneration report pursuant to Section 162 AktG for the 2022 financial year

The remuneration report describes the structure and system of the remuneration for the Executive Board and Supervisory Board and provides detailed information about the individual remuneration and other benefits of present and former members of the Executive Board and Supervisory Board of Hannover Rück SE that are granted and owing to them for their work in the 2022 financial year.

The report was drawn up by the Executive Board and Supervisory Board of the company in conformity with the requirements of § 162 Stock Corporation Act (AktG), fulfils the recommendations and suggestions of the German Corporate Governance Code (DCGK) as amended on 16 December 2019 and takes account of relevant regulatory provisions.

The remuneration report was subjected to an audit, both formally and in terms of its content, by PricewaterhouseCoopers GmbH Wirtschaftsprüfungsgesellschaft that went above and beyond the requirements of § 162 Stock Corporation Act (AktG). The remuneration report and the report of the independent auditor on the audit of the remuneration report can be accessed on the website of Hannover Rück SE (<https://www.hannover-re.com/286045/2023-annual-general-meeting>). Remuneration of the Executive Board

Overview of the remuneration system

The current remuneration system for the Executive Board has been in effect since 1 January 2021. It is in conformity with legal and regulatory requirements and the recommendations of the German Corporate Governance Code (DCGK) and was approved by the Annual General Meeting on 5 May 2021 with a majority of 85.54%.

The remuneration system is submitted to the Annual General Meeting for approval if any material changes are made to the remuneration system, and at least every four years.

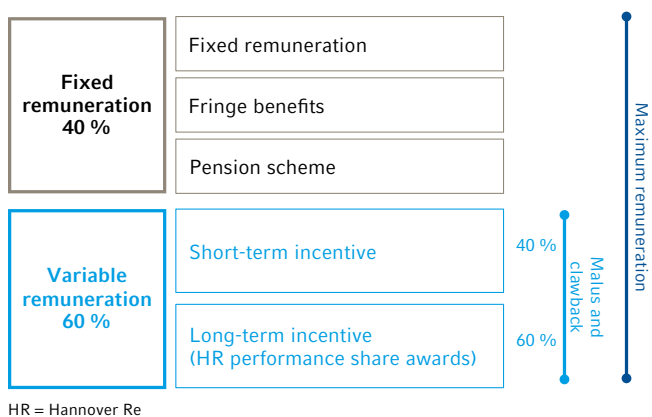

In view of the General Meeting’s approval with a majority of 85.54%, there was no reason to question or modify the remuneration system, its implementation or the nature of the reporting. Points made in discussions with investors prompted us to present in more detail the application of the remunera-

tion system in the 2022 financial year in relation to variable remuneration. In addition to the multi-year variable remuneration components paid out in 2022, we also show the current status of payments due in the coming years from multi-year variable remuneration.

The remuneration system is transparently and comprehensively structured overall and responds to the expectations of our investors and other key stakeholders. The remuneration consists of fixed (non-performance-based) and variable (performance-based) components. The considerable relevance of the variable remuneration and the reinforcement of the concept of “pay-for-performance” are front and centre in this regard. The variable remuneration is based on financial and non-financial performance criteria that are derived from the Hannover Re Group strategy and can be influenced by the Executive Board. The measurement of performance also takes account of sustainability criteria that promote sustainable and long-term growth in the value of the company. In addition, the remuneration of the Executive Board is closely aligned with the interests of our investors through a strong share correlation based on the use of a Performance Share Plan and relative measurement of the Hannover Re share’s performance in comparison with our peers. Malus und clawback provisions make it possible to reduce or claw back variable remuneration components in the event of serious compliance violations.

The major elements of the remuneration system are summarised in the following overview:

Structure of the remuneration system M 70

Basic principles underlying the remuneration of the Executive Board

The strategy of the Hannover Re Group is geared to sustainable outperformance in the interests of the Group’s stakeholders (in particular investors, clients and employees). In remuneration

nerating the Executive Board our focus is therefore on the principles of continuity, financial strength and profitability. With a rigorous underwriting policy, partnership-based customer relationships, a lean operating model and our highly efficient risk and capital management, we aim to preserve our outstanding position as one of the world's leading and most profitable reinsurance groups on an enduring basis and be the market leader in terms of profitability, earnings growth and cost efficiency. In our "Striving for sustainable outperformance", governance, risk management, compliance and corporate social responsibility constitute the foundations for our growth as a trusted global reinsurance partner.

Risk management and corporate social responsibility are defined more closely in specific strategies derived from the Group strategy. For further information about the risk management system we would refer to the "Opportunity and risk report" from page 75 et seq in our Annual Report 2022. For further information on corporate social responsibility and the compliance management system, please see the non-financial information statement in our Annual Report 2022 from page 59 et seq. We report on the basic principles of our corporate governance in our Annual Report 2022 from page 107 et seq.

The remuneration of the Executive Board makes a substantial contribution to the advancement of our Group strategy and

the long-term and sustainable development of the Hannover Re Group. The remuneration ensures a transparent, performance-related incentive, strongly focused on the company's long-term success, which in particular depends on financial and non-financial performance criteria derived from the Group strategy and on the performance of the Hannover Rück SE share, including in comparison with our peers. An excessive risk appetite is thereby discouraged.

The members of the Executive Board are remunerated in light of the company's position and according to their performance and their scope of activity and responsibility. The requirements of the Stock Corporation Act (AktG), the provisions of Article 275 of Delegated Regulation (EU) 2015/35 with amendments by Delegated Regulation (EU) 2016/2283 and of the Insurance Supervision Act in conjunction with the Regulation on the Supervisory Law Requirements for Remuneration Schemes in the Insurance Sector (VersVergV) as well as the recommendations for the remuneration of the management board contained in Section G of the German Corporate Governance Code (DCGK) establish the regulatory framework.

In determining the remuneration for the Executive Board of Hannover Re, the Supervisory Board followed the guidelines set out below:

Remuneration structure

The idea of “pay for performance” and the long-term orientation are paramount concepts central to the remuneration system for the Executive Board of Hannover Re.

In order to reinforce the concept of pay-for-performance, the target direct remuneration (sum of fixed remuneration and target amounts of the variable remuneration components in the event of 100% target attainment) is comprised of 40% fixed remuneration and 60% variable remuneration components. The variable remuneration consists of a short-term incentive (STI) and a long-term incentive (LTI) with a performance period of four years.

The remuneration structure is geared to the sustainable and long-term development of the Hannover Re Group. The STI accounts for 40% of the variable remuneration components and thus contributes 24% to the target direct remuneration. The LTI, which accounts for a 60% share of the variable remuneration components, represents 36% of the target direct remuneration.

Review of the appropriateness of the Executive Board remuneration

The remuneration of the members of the Executive Board is determined by the Supervisory Board on the basis of the remuneration system in accordance with the recommendations of the Standing Committee. When determining the remuneration of the members of the Executive Board, the Supervisory Board considers the responsibility and tasks of the individual members of the Executive Board, their individual performance, the economic situation and the success and future prospects of the company.

The customary nature of the remuneration in comparison to other similar companies (horizontal comparison) and in terms of the amount of remuneration as well as the remuneration structure within the company (vertical comparison) was reviewed by the Supervisory Board at its meeting on 2 November 2022. Companies listed on the DAX and MDAX (with the exception of Hannover Re) as at 1 September 2022 were used on a combined basis as a peer group for the horizontal comparison of remuneration. The vertical comparison is based on the remuneration of the Executive Board relative to the remuneration of the total workforce of Hannover Re in Germany. Both the status quo and the development over time of the remuneration ratios were taken into consideration. As a further indication, the target direct remuneration of the Executive Board was also subjected to a horizontal comparison with an individual benchmark group comprised of relevant peers. This benchmark group is also used in the multi-year variable remuneration to measure the relative Total Shareholder Return. The Supervisory Board availed itself of the option to engage an external remuneration consultant – independent of the Executive Board and the company – for the review of the appropriateness of the Executive Board remuneration.

Determination of target remuneration

Every member of the Executive Board is given a contractual commitment to customary target remuneration. This is aligned with their scope of responsibility and with their expertise and experience that are relevant to the role.

The fixed and variable remuneration components are balanced. The fixed component has a sufficiently large share in the target total remuneration that the company is able to apply a flexible bonus policy, including the possibility of not paying any variable remuneration at all. This means that members of the Executive Board have no incentive to enter into excessively high risks in the interest of higher bonus payments.

The following tables show the target remuneration for each member of the Executive Board for the 2022 financial year. The target remuneration encompasses the remuneration commitment for the financial year that is granted in the event of 100% target attainment.

³ Silke Sehm were contractually granted target remuneration by the Supervisory Board with effect from July 2022 as follows:
basic remuneration = EUR 460 thousand, STI = EUR 276 thousand, LTI = EUR 414 thousand.

Pay ratios

In the year under review the target total remuneration of the Chief Executive Officer (excluding compensatory payment for the forfeiture of benefits from the previous employer) was 23 times the target total remuneration of the average of all company employees (excluding the Executive Board). The target total remuneration of the average of all members of the Exec-

utive Board was 15 times the target total remuneration of the average of all employees (excluding the Executive Board). The target total remuneration of the average of all employees refers to the workforce of Hannover Re in Germany; it encompasses the personal expense (excluding expense for Executive Board remuneration) for wages and salaries and the vari-

able salaries upon 100% target attainment on a full-time equivalent basis.

Adherence to maximum remuneration

The Supervisory Board has determined an upper limit for each member of the Executive Board based on the amount for the total of fixed remuneration, fringe benefits, STI and LTI as well as pension service cost (“maximum remuneration”) in accordance with § 87a Para. 1 Sentence 2 No. 1 Stock Corporation Act (AktG). The maximum remuneration limits all payments that result from the commitment for a financial year, irrespective of the date of receipt. The maximum remuneration is EUR 5,000,000 for the Chief Executive Officer and EUR 3,000,000 for all other members of the Executive Board.

It is only possible to report definitively on adherence to the maximum remuneration for the 2022 financial year after the LTI tranche awarded for 2022 has been paid out, which will occur in 2027. Should the payment made from the LTI lead to the maximum remuneration being exceeded, the amount paid out will be reduced accordingly so as to ensure adherence to the maximum remuneration.

Fixed remuneration components

Fixed remuneration

The fixed remuneration is paid out in cash in twelve equal monthly instalments. It is aligned in particular with the scope of tasks and professional experience of the respective member of the Executive Board.

Fringe benefits

The members of the Executive Board additionally receive certain non-performance-based fringe benefits in the customary scope; these are reviewed at regular intervals. A vehicle is made available for company and personal use for the duration of the Board appointment. The member of the Executive Board is responsible for paying tax on the pecuniary advantage associated with personal use of the company car. In addition, the company grants the members of its Executive Board an appropriate amount of insurance protection under group policies (accident, luggage and D & O insurance).

If a new member of the Executive Board forfeits a bonus from their previous employer, sign-on or recruitment bonuses are paid in exceptional cases. Compensation for forfeited variable remuneration components from the previous employer is normally granted in multiple instalments and linked to payment conditions.

Retirement provision

With the exception of Dr. Pickel, whose annual pension is based on a final salary commitment, the members of the Executive Board have defined contribution commitments. Further information in this regard is provided in the subsection "Benefits on leaving the company".

Variable remuneration components

The variable remuneration components consist of a short-term incentive (STI), which is assessed on the basis of the respective financial year, and a long-term incentive (LTI) with a performance period of four years.

The performance criteria for measuring and evaluating target attainment are derived from Hannover Re's corporate strategy. To this end, the variable remuneration components are structured in such a way as to promote the long-term development of the Hannover Re Group. The following overview shows the close linkage between the performance criteria and other aspects of the variable remuneration and the corporate strategy and explains how the variable remuneration promotes Hannover Re's sustainable development.

The company does not, as a matter of principle, grant the members of the Executive Board any guaranteed variable remuneration.

Short-Term Incentive (STI)

Fundamentals

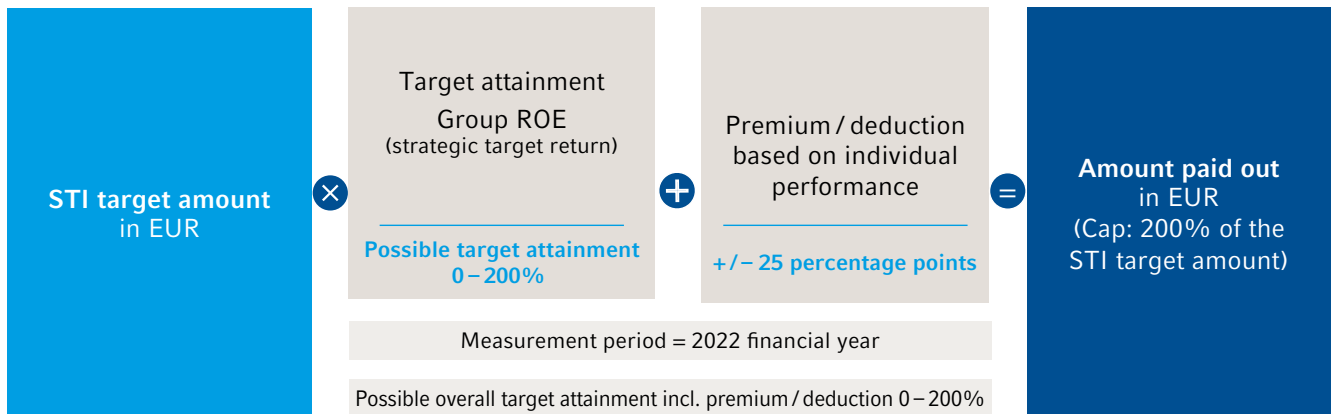

The STI is geared to Hannover Re's commercial success in the relevant financial year. In addition to the financial performance criterion of the return on equity (RoE) generated by the Hannover Re Group pursuant to the consolidated financial statement of Hannover Rück SE ("Group RoE"), an individual premium or deduction is considered in the determination of the amount paid out which comprises both financial and non-financial performance criteria, in particular sustainability targets, and makes allowance for the respective divisional responsibilities of the individual members of the Executive Board in addition to the overall responsibility of the

Executive Board. In this way, the STI addresses the goal of a high and stable return on equity for the Hannover Re Group, promotes action on Board- or division-specific focus topics and integrates the interests of our clients, employees and other key stakeholders.

The basis for payment of the STI consists of the contractually defined STI target amount, which is based on overall target attainment of 100%. The overall target attainment (including the individual premium or deduction) can reach values between 0% and 200% of the STI target amount. The amount that can be paid out under the STI is thus limited to 200% of the target amount.

Calculation of the short-term incentive (STI)

M 76

Financial performance criterion

The determinative financial performance criterion for the STI is – with a weighting of 100% – the Group RoE for the financial year in comparison with a strategic target return, which is established on the basis of the risk-free interest rate on a 5-year average plus an ambitious spread. The risk-free interest rate is the average market rate over the past five years for ten-year German government bonds, with the average being calculated on the basis of the respective interest rate at year-end. The Group RoE is one of the key performance indicators in Hannover Re’s management system and as such is also implemented in the remuneration of the Executive Board. Hannover Re pursues the goal of generating a high return on equity. The Group’s focus here is on sustainable value enhancement. The use of the Group RoE as a determinative performance criterion for the STI creates incentives for accomplishment of this goal.

The target value for the Group-RoE as well as the target corridor with upper and lower thresholds are in each case defined in advance by the Supervisory Board for the coming fi-

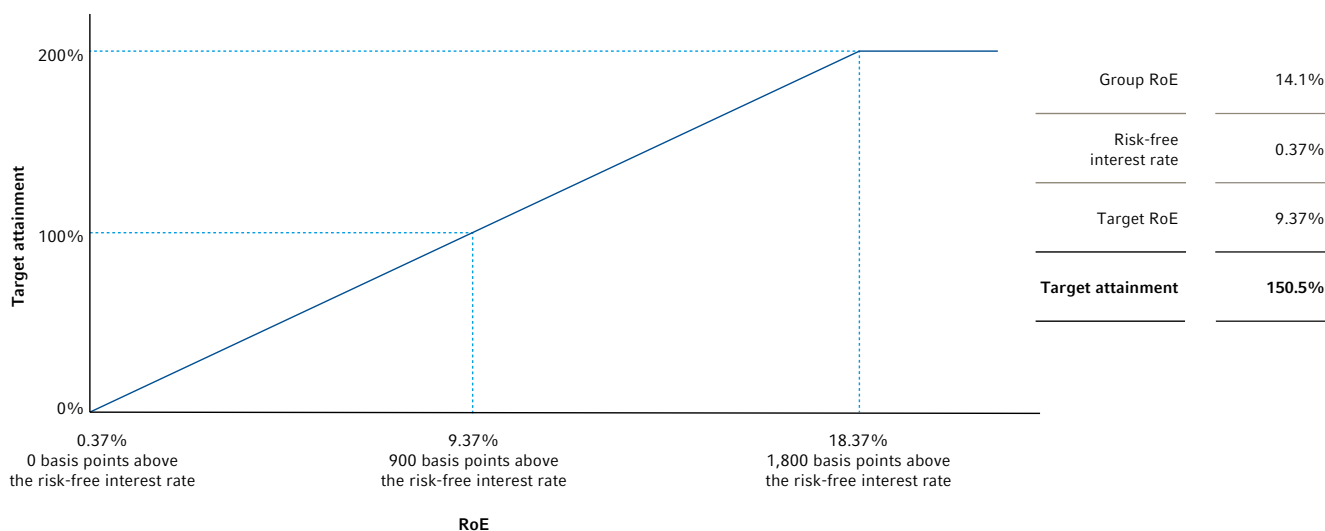

ancial year. In this context, the target value is aligned with the strategic target return of the Hannover Re Group at the time when it was determined.

For the 2022 financial year the Supervisory Board defined a target value (100% target attainment) of 900 basis points above the risk-free interest rate for the Group RoE. This is consistent with the company’s strategic target of generating sustainable value creation through a return on equity of at least 900 basis points above the risk-free interest rate. The lower threshold was defined as the risk-free interest rate without a spread, while the upper threshold was set at 1,800 basis points above the risk-free interest rate.

The risk-free interest rate on ten-year German government bonds over a 5-year average amounted to 0.37% as at the end of 2022. For the 2022 financial year the target Group RoE therefore stands at 937 basis points. In the 2022 financial year, a Group RoE of 14.1% (1,410 basis points) was generated. This corresponds to target attainment of the performance criterion Group RoE of 150.5%.

Target attainment Group RoE in the 2022 financial year

M 77

At its meeting on 2 November 2022, the Supervisory Board raised the Group RoE target (strategic target return) for the 2023 financial year from 900 to 1,000 basis points above the risk-free interest rate to allow for the expected increase in the RoE ratio due to the transition to the new IFRS 17 accounting standard.

Individual premium or deduction

By applying an individual premium or deduction to target attainment of the performance criterion Group RoE, the Supervisory Board can consider – in addition to the financial success of the Hannover Re Group – the individual contribution made by the member of the Executive Board and, as appropriate, the division under their responsibility to the result as well as the attainment of sustainability targets in the context of the STI. The amount of the premium or deduction, which can range from -25 percentage points to +25 percentage points, is determined by the Supervisory Board at its reason-

able discretion. The criteria and indicators for determination of the individual premium or deduction are in each case defined in advance by the Supervisory Board for the coming financial year and communicated to the members of the Executive Board.

For the 2022 financial year, the Supervisory Board determined for the individual members of the Executive Board the following criteria and indicators as well as – on this basis – the following individual premiums and deductions subsequent to the financial year:

Long-Term Incentive (LTI)

Fundamentals

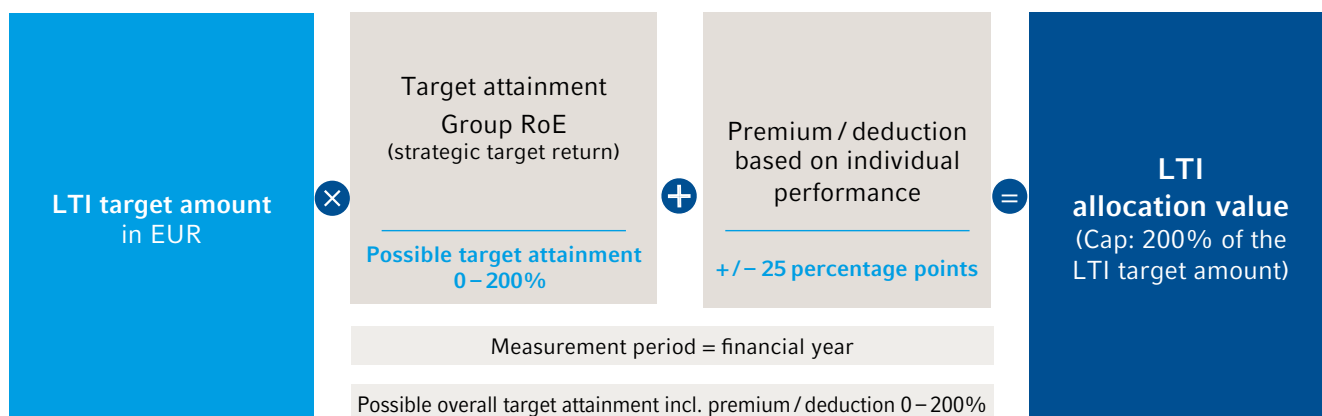

The LTI plays a key role in aligning the interests of the Executive Board with those of our shareholders. Through relative measurement of the Hannover Re share performance incentives are created for long-term outperformance of our competitors on the capital market.

The LTI is structured in the form of a performance share plan and thereby incentivises increases in the value of the Han-

nover Re share in the interests of our investors. The amount of the LTI allocation value is based on the contractually agreed LTI target amount (target attainment 100%) and depends on the target attainment for the financial performance criterion Group RoE determined in the context of the STI for the respective financial year as well as the individual premium or deduction defined by the Supervisory Board for the financial year (overall target attainment).

Calculation of the long-term incentive (LTI) allocation value

M 80

The overall target attainment of the STI 2022 is the basis for allocation of the LTI tranche 2022 in the 2023 financial year (Hannover Re performance share awards). The number of allocated Hannover Re performance shares is determined from the LTI allocation value as well as the average Hannover Re share price over a period extending from 15 trading days before to 15 trading days after the meeting of the Supervisory Board that approves the consolidated financial statement. The Hannover Re performance shares have a total term of four years (“performance period”). The LTI tranche 2022 will be paid out in the 2027 calendar year following the four-year performance period.

The following table presents the most important aspects of the allocation of the LTI tranche 2022.

LTI 2022 allocation

M 81

Member of the Executive Board	Target amount in EUR thousand	Overall target attainment of the STI 2021	Allocation amount in EUR thousand
Jean-Jacques Henchoz	756.0	150.5%	1,137.8
Sven Althoff	468.0	150.5%	704.3
Claude Chèvre	468.0	155.5%	727.7
Clemens Jungsthöfel	387.0	165.5%	640.5
Dr. Klaus Miller	468.0	158.0%	739.4
Dr. Michael Pickel	468.0	150.5%	704.3
Silke Sehm	387.0	155.5%	601.8
Total	3,402.0		5,255.8

At the end of the four-year performance period the base payment amount is initially calculated on the basis of the Hannover Re share price performance. This base amount is determined from the allocated number of Hannover Re performance shares (LTI tranche 2022) and the average share price of Hannover Rück SE over a period extending from 15 trading days before to 15 trading days after the meeting of the Supervisory Board that approves the consolidated financial statement in the year when the four-year performance period ends (2027) plus the dividends paid out during the performance period. The performance thus fully reflects the total shareholder return.

Calculation of the LTI base payment amount (allowance for share performance)

M 82

The final amount to be paid out is determined from the base payment amount and the target attainment of the relative total shareholder return (“relative TSR”) measured against the peer group (Munich Re, Swiss Re, Everest Re, Reinsurance Group of America, SCOR). The amount paid out for the LTI is limited to 200% of the LTI allocation value and can thus

amount to altogether at most 400% of the LTI target amount (max. 200% LTI allocation value + max. 200% measured by the relative TSR) – provided that the sum total of all remuneration components does not exceed the maximum remuneration pursuant to § 87a Para. 1 Sentence 2 No. 1 Stock Corporation Act (AktG).

Calculation of the LTI amount paid out allowing for the performance peer group

M 83

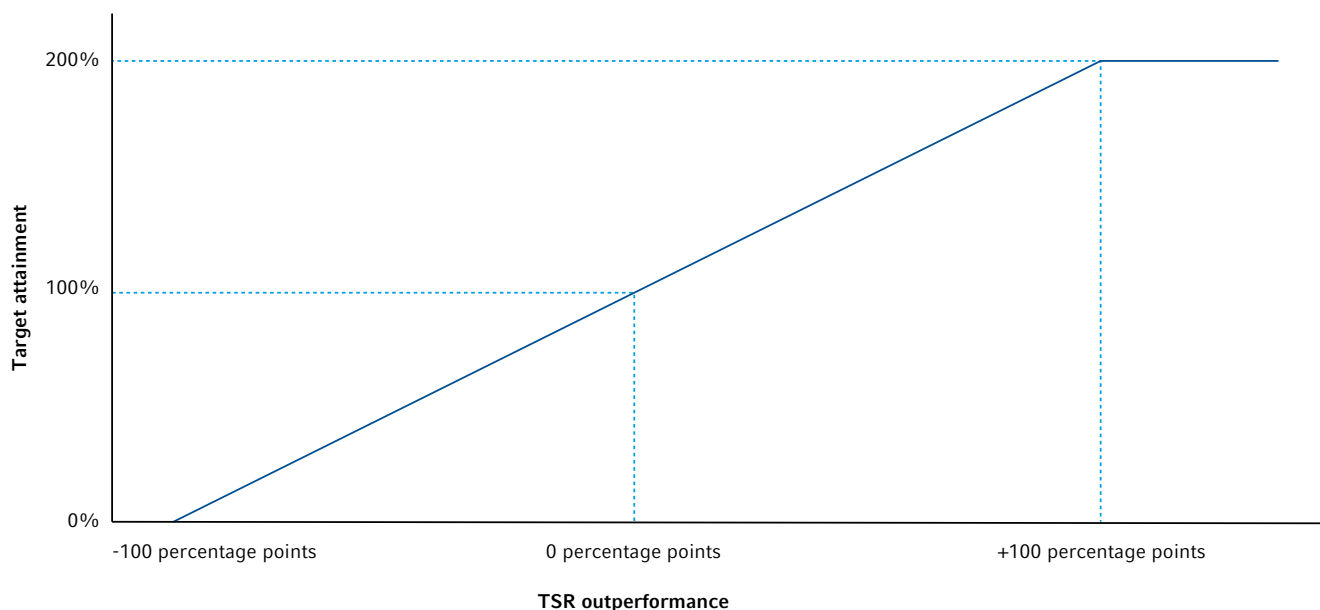

Financial performance criterion

The determinative performance criterion for the final LTI amount to be paid out is the relative TSR. By means of the relative TSR, an external performance criterion geared to the capital market is integrated into the variable remuneration that facilitates relative performance measurement as well as alignment of the interests of the Executive Board and those of shareholders. The relative TSR maps the development of the Hannover Re share price during the four-year performance period including gross dividends in comparison with a peer group comprised of relevant competitors in the insurance industry. In this way, the LTI creates incentives for the strong performance of the Hannover Re share on the capital market on a long-term and sustainable basis.

- Munich Re
- Swiss Re
- Everest Re
- RGA (Reinsurance Group of America)
- SCOR

The target attainment for the relative TSR is established by comparing the TSR of the Hannover Re share with the shares of companies in the peer group during the four-year performance period. For this purpose, the TSR of the Hannover Re share in the respective performance period is compared with the unweighted average TSR of the peer group. The Supervisory Board reviews the peer group before the start of each performance period of a new LTI tranche. For the LTI tranche 2022 it is composed of the following companies:

If the TSR of the Hannover Re share corresponds to the unweighted average TSR of the peer group, the target attainment for the relative TSR amounts to 100%. Each percentage point by which the TSR of the Hannover Re share exceeds or falls short of the unweighted average TSR of the peer group results in a corresponding increase or reduction in the target attainment (linear scaling). If the TSR of the Hannover Re share exceeds the unweighted average TSR of the peer group by 100 percentage points or more, the target attainment for the relative TSR amounts to 200%. Any further increase in the relative TSR will not lead to a further increase in the target attainment. If the TSR of the Hannover Re share is 100 percentage points or more below the unweighted average TSR of the peer group, the target attainment for the relative TSR amounts to 0%.

The target attainment for the LTI tranche 2022 will be disclosed in the 2027 remuneration report after the end of the performance period.

Amounts paid out from multi-year variable remuneration components

In the 2022 financial year amounts were paid out from multi-year variable remuneration components of the old remuneration system, which was applicable until the end of the 2020 financial year. In this system the variable remuneration for a financial year consisted of a Group bonus and an individual bonus as well as – in the case of members of the Executive Board with responsibility for a certain division – a divisional bonus. 60% of the amount determined for each member of the Executive Board was paid out after the end of the respective financial year, while 20% was allocated as virtual shares (Hannover Re share awards) and a further 20% was contributed to a so-called bonus bank. The Hannover Re share awards allocated in the 2018 financial year on the basis of the target attainment for the variable remuneration of the 2017 financial year (Hannover Re share awards 2017) as well as the amount contributed to the bonus bank in the 2019 financial year on the basis of the target attainment for the variable remuneration of the 2018 financial year (bonus bank 2018) were paid out in 2022.

Hannover Re share awards 2017

Under the remuneration system valid until 2020, once the variable remuneration had been established for a financial year Hannover Re share awards were automatically allocated in the equivalent amount of 20% of the determined variable remuneration. The value per share upon allocation was established on the basis of the unweighted arithmetic mean of the Xetra closing prices over a period of five trading days before to five trading days after the meeting of the Supervisory Board that approved the consolidated financial statement. After a vesting period of four years the value of the Hannover Re share awards calculated at the payment date was paid out. In this context, the value of the share is established on the basis of the unweighted arithmetic mean of the Xetra closing prices over a period of five trading days before to five trading days after the meeting of the Supervisory Board that approves the consolidated financial statement. In addition, the sum total of all dividends per share distributed during the vesting period is paid out.

In the 2022 financial year the vesting period for the Hannover Re share awards allocated in the 2018 financial year on the basis of the 2017 variable remuneration ended and the calculated value was paid out.

The following table provides an overview of the Hannover Re share awards 2017:

Bonus bank 2018

In addition, the amount contributed to the bonus bank in the 2019 financial year on the basis of the 2018 variable remuneration was paid out in the 2022 financial year.

The positive amount contributed to the bonus bank three years prior to the payment date becomes payable, insofar as it does not exceed the balance of the bonus bank after allowance for credits/debits up to and including those for the last completed financial year. Pending payments not covered by a positive balance in the bonus bank are forfeited.

In making its discretionary decision, the Supervisory Board considers the severity of the violation, the degree of fault on the part of the member of the Executive Board as well as the material and immaterial damage incurred by the company.

Furthermore, a member of the Executive Board shall pay back variable remuneration already paid out to them in the event that, and insofar as, it emerges after payment has been made that the audited and adopted consolidated financial statement used as a basis for the calculation of the amount paid out was incorrect and must therefore be corrected according to pertinent financial reporting standards and a lower amount – or no amount at all – would have been owed from the variable remuneration on the basis of the corrected and audited consolidated financial statement and the relevant remuneration system.

In addition, a restriction or complete omission of payment of the variable remuneration components is permissible in the event of a final or immediately enforceable ruling of the Federal Financial Supervisory Authority (BaFin) in which the payment is prohibited or restricted (such as: if the equity capital is lower or at risk of becoming lower than the solvency capital requirement), and also if this is required in accordance with Art. 275 Para. 2 letter e of the Delegated Regulation (EU) 2015/35 of 10 October 2014.

Malus and clawback, risk adjustment

If a member of the Executive Board intentionally violates one of their fundamental due diligence obligations pursuant to § 93 Stock Corporation Act (AktG), a cardinal obligation under their service contract or other fundamental company principles governing conduct, e.g. from the Code of Conduct or the compliance guidelines, the Supervisory Board may, at its discretion, withhold in part or in full variable remuneration that has not yet been paid out (“malus”) or reclaim in part or in full the gross amount of the variable remuneration already paid out (“clawback”). A clawback of remuneration is excluded if the significant breach occurred more than five years ago.

No clawback or reduction occurred in the 2022 financial year, nor was there any restriction or omission of payment of variable remuneration components.

Benefits on leaving the company

Retirement provision

The members of the Executive Board, with the exception of Dr. Pickel, have been granted defined contribution pension commitments through retirement, surviving dependants' and disability benefits. At the request of the member of the Executive Board the retirement benefit is paid as a one-time lump sum. The pension benefits are provided through HDI Unterstützungskasse e. V. The latter takes out corresponding insurance covers to fund the benefits. The amount of the pension benefits corresponds to the payments under the insurance covers on the basis of the funding contributions rendered annually by the company in an amount of 25% of the pensionable income (annual fixed remuneration). Regular annuities are increased annually by at least 1% of their last (gross) amount.

Dr. Pickel was granted a pension commitment through a life-long pension and a surviving dependants' benefit. The amount of the pension benefits is calculated according to a length-of-service-based percentage ranging from 25% to at most 50% of the pensionable income (last monthly salary received). In conjunction with the remuneration structure valid from 2011 onwards, a non-pensionable fixed remuneration component was implemented. Of the fixed remuneration amounting to altogether EUR 520 thousand, EUR 320 thousand carries a pension entitlement. If the pension is drawn before reaching the age of 65, 50% of other income received is counted towards the pension. Regular pensions are adjusted annually according to changes in the consumer price index for Germany.

The pension entitlements pursuant to IAS 19 for the current members of the Executive Board are set out in the following table.

¹ Mr. Althoff and Ms. Sehm were first granted a pension commitment prior to 2001 on the basis of their service to the company before their appointment to the Executive Board. The earned portion of the defined benefit obligation is therefore established as a proportion (in the ratio [currently attained service years since entry]/[attainable service years from entry to exit age]) of the final benefit. The values shown include the entitlements prior to appointment to the Executive Board, which in accordance with a resolution of the company's Supervisory Board shall remain unaffected by the pension commitment as a member of the Executive Board.

² The personnel expense includes a past service cost due to a premium increase in an amount of EUR 211.9 thousand (2021).

³ The personnel expense includes a past service cost due to a premium increase and change in measurement in an amount of EUR 144.9 thousand (2021) and EUR 93.1 thousand (2022).

Variable remuneration in case of early termination of the employment relationship

Short-Term Incentive (STI)

If the employment relationship of a member of the Executive Board ends during a financial year for a compelling reason that is not the responsibility of the member of the Executive Board in accordance with § 626 Para. 1 Civil Code (BGB), the participant in the plan has an entitlement to a pro rata temporis STI for this financial year. If the employment relationship is terminated by the company without notice prior to the end of the financial year for a compelling reason that is the responsibility of the member of the Executive Board in accordance with § 626 Para. 1 Civil Code (BGB), the entitlement to STI for this financial year shall be cancelled without replacement or compensation.

Long-Term Incentive (LTI)

If the employment relationship or the term of office on the Executive Board ends prior to the end of the performance period for a reason other than those specified below before the end of a financial year, the participant in the plan has an entitlement to a pro rata temporis LTI for this financial year. In this event, the determination and payment of the variable remuneration components is normally made in accordance with the provisions of the plan conditions for the LTI. Early payment prior to the end of the respective performance period of the LTI is not envisaged in such instances.

If the employment relationship or the term of office on the Executive Board ends during the financial year due to resignation from office or notice given by the member of the Executive Board (exception: resignation from office or notice given by the member of the Executive Board for a compelling reason), the refusal by the member of the Executive Board to accept an offer of extension on at least equal contractual conditions (exception: the member of the Executive Board has reached the age of 60 and served as a member of the Executive Board for two terms of office), extraordinary termination without notice of the service contract of the member of the Executive Board by the company for a compelling reason or revocation of the appointment of the member of the Executive Board for a compelling reason as defined by § 84 Para. 3 Stock Corporation Act (AktG) (exception: vote of no confidence passed by the General Meeting), all conditionally allocated Hannover Re performance shares shall be cancelled without replacement or compensation.

Severance pay

The service contracts of the Executive Board make no provision for claims to severance pay. Commitments to benefits in connection with the early termination of employment on the Executive Board as a consequence of a change of control are similarly not envisaged in the service contracts of the members of the Executive Board.

The total remuneration of former members of the Executive Board and their surviving dependants, for whom 16 (16) pension commitments existed, amounted to EUR 1.9 million (EUR 1.8 million) in the year under review. Altogether, a provision of EUR 24.7 million (EUR 31.2 million) has been set aside for pension commitments.

Remuneration of the Supervisory Board

The remuneration of the Supervisory Board is determined by the Annual General Meeting of Hannover Rück SE and governed by the Articles of Association.

In accordance with § 14 of the Articles of Association as amended on 5 May 2021 and the resolution of the Annual General Meeting on 5 May 2021, the members of the Supervisory Board receive fixed annual remuneration of EUR 75,000 in addition to reimbursement of their expenses.

The Chairman of the Supervisory Board receives two-and-a-half times the aforementioned remuneration amounts and the Deputy Chairman one-and-a-half times the amounts.

The members of the Finance and Audit Committee formed by the Supervisory Board additionally receive remuneration of EUR 25,000 for their committee work and the members of the Standing Committee formed by the Supervisory Board receive remuneration of EUR 15,000. The Chair of each Committee receives twice the stated amounts. No remuneration is envisaged for the Nomination Committee.

Members who have only belonged to the Supervisory Board or one of its Committees for part of the financial year receive the remuneration amounts pro rata temporis.

In addition to the specified remuneration for participation in the meetings of the Supervisory Board and the Committees, each member of the Supervisory Board receives an attendance allowance of EUR 1,000 per meeting. If a meeting of the Supervisory Board and one or more Committee meetings fall on the same day, the attendance allowance for this day is only paid once in total.

The individualised presentation of the remuneration shows the remuneration actually due in the respective year under review for the year under review as well as the attendance allowances granted in the year under review. Value-added tax payable on the remuneration, insofar as it accrues, is reimbursed by the company.

In the year under review no remuneration was paid to the members of the Supervisory Board for services provided individually outside the committee work described above, e.g. for consulting or mediation services, with the exception of the remuneration paid to employee representatives on the basis of their employment contract.

Information regarding the holding of the virtual Annual General Meeting

The Executive Board has passed a resolution, with the consent of the Supervisory Board, to hold the Annual General Meeting of Hannover Rück SE pursuant to Section 118a AktG in conjunction with Section 26n (1) of the Introductory Act to the German Stock Corporation Act (EGAktG) as a virtual Annual General Meeting, i.e. without the physical presence of the shareholders or their authorised representatives at the venue of the Annual General Meeting.

The virtual Annual General Meeting will be broadcast live in video and audio on 3 May 2023, from 11:00 a.m. (CEST) on our Shareholder Portal at <https://hv-hannover-rueck.link-apps.de/imeet>. Shareholders or their authorised representatives wishing to participate in the virtual Annual General Meeting must register in advance (see below “**Registration for the virtual Annual General Meeting**”).

In the interest of providing a comprehensive opportunity to prepare for the exercise of shareholder rights, the company plans to publish the speech of the Chairman of the Executive Board and the presentation about the 2022 financial year on the company’s website at www.hannover-re.com/286045/2023-annual-general-meeting on a voluntary basis in advance of the virtual Annual General Meeting on 26 April 2023. We reserve the right to make changes, such as textual adjustments, for the day of the virtual Annual General Meeting. Moreover, the spoken word shall be authoritative.

The virtual Annual General Meeting is to be held in the physical presence of the Chair of the meeting, the members of the Executive and Supervisory boards, the notary public commissioned to prepare the minutes, and the company’s designated proxies. The shareholders and their authorised representatives (with the exception of the company’s designated proxies) are not permitted to attend in person at the venue of the Annual General Meeting.

In view of the special features of the virtual Annual General Meeting, we would ask you to pay particular attention to the following information about registration and the exercising voting rights and other shareholder rights. In light of the new legislative framework, significant changes have occurred compared with previous years’ Annual General Meetings.

Notes about participation and the exercise of voting rights

Shareholder Portal

Properly registered shareholders connect to the virtual AGM electronically via the Shareholder Portal and thereby participate in the virtual AGM, exercise their shareholder rights on a virtual basis, and follow the entire virtual Annual General Meeting live via webcast. The Shareholder Portal can be accessed via the website <https://hv-hannover-rueck.link-apps.de/imeet>. Detailed information can be found in the reply form enclosed with the invitation documents and on the Internet at www.hannover-re.com/286045/2023-annual-general-meeting. Shareholders will find their personal access data for using the Shareholder Portal in the invitation documents that have been sent to them.

Registration for the virtual Annual General Meeting

Shareholders are entitled to participate in the virtual Annual General Meeting (i.e. to connect electronically to the virtual Annual General Meeting) and to exercise their voting rights and other participation-related stockholder rights if they have registered by **no later than 26 April 2023, 24:00 (CEST) (time of receipt)**

in writing to the postal address:

Hannover Rück SE
c/o Link Market Services GmbH
Landshuter Allee 10
80637 Munich

or electronically in the Shareholder Portal at the web address:

<https://hv-hannover-rueck.link-apps.de/imeet>

or at the link:

www.hannover-re.com/286045/2023-annual-general-meeting

or electronically at the e-mail address:

hannoverrueck.hv@linkmarketservices.de

and are entered in the share register for the registered shares at the time of the virtual Annual General.

Shares are not blocked as a consequence of registration for the virtual Annual General Meeting; as a consequence, shareholders also remain free to dispose of their shares after registration. A disposal of the shares may, however, have implications for the right to virtual participation and the entitlement to exercise shareholders’ rights virtually, as the shareholding according to the share register at the time of the virtual

shareholders' meeting is decisive for this. This shareholding will correspond to the shareholding registered in the share register as of 27 April 2022, 24:00 (CEST) (= technical record date) as, for technical reasons, no further transfer entries will be made in the share register between the expiry of the registration deadline and the end of the virtual Annual General Meeting, i.e. between 27 April 2022, 00:00 (CEST) and 4 May 2022, 24:00 (CEST) inclusive.

Procedure for voting by an authorised representative

Within the framework of the statutory provisions, shareholders have the option of having their voting rights be exercised by an authorised representative, such as an intermediary (such as a bank), a shareholders' association, a voting advisor or a person who offers to exercise shareholders' voting rights at the Annual General Meeting on a commercial basis. In this case, too, proper registration must be ensured in accordance with the requirements set out above under **"Registration for the virtual Annual General Meeting"**.

The granting of the power of attorney, its amendment, its revocation and the proof of authorization must be provided to the company in text form. This can be done by mail or e-mail **until 2 May 2023, 24:00 (CEST) (time of receipt)** at the address or e-mail address stated above under **"Registration for the virtual Annual General Meeting"**. Please use the reply form enclosed with the registration documents for this purpose. In addition, the **Shareholder Portal** at <https://hv-hannover-rueck.link-apps.de/imeet> will be available for this purpose **until the time specified by the Chair of the meeting as part of voting at the Annual General Meeting on 3 May 2023**.

Powers of attorney already granted may be amended or revoked at any time up to the aforementioned times. In the event of multiple declarations, the most recently received declaration shall take precedence; irrespective of this, an electronic grant of power of attorney via the Shareholder Portal shall always take precedence over a power of attorney granted by mail or e-mail, so that any other grant of power of attorney with the same shareholder number shall then be invalid, irrespective of the time of its receipt.

In cases where an intermediary, shareholder association or other person or institution specified in Section 135 (8) AktG is authorised, the procedure, form and revocation of the power of attorney are subject to special rules. Please consult with the relevant intermediary, the relevant shareholder association or other person or institution specified in Section 135 (8) AktG for further details. If intermediaries are registered in the share register, such intermediaries may only exercise the voting right attached to shares they do not own on the basis of authorisation from the shareholder.

Authorised representatives cannot physically attend the Annual General Meeting. They can only exercise the voting right for the shareholders they represent by way of postal voting or by granting a (sub-)power of attorney and instructions to the company's designated proxies. For the exercise of shareholder rights by authorised representatives, the instructions on voting rights and voting as well as on the exercise of further shareholder rights contained in this convening notice apply accordingly.

Pursuant to Article 16 (3) of the Articles of Association, the company has designated Axel Bock (Investor & Rating Agency Relations) and Rainer Filitz (Group Legal Services), as proxies with the right to authorise a sub-proxy who can similarly be authorised to cast votes. The company's designated proxies exercise the voting right solely on the basis of the instructions issued by the shareholder or authorised representative. The granting of, and amendments to, the power of attorney and instructions issued to the company's designated proxies can be effected by post or e-mail **until no later than 2 May 2023, 24:00 (CEST) (time of receipt)** at the address or e-mail address indicated above under **"Registration for the virtual Annual General Meeting"**, provided that you have registered properly.

The **Shareholder Portal** is also available for this purpose at <https://hv-hannover-rueck.link-apps.de/imeet>, through which it will be possible to grant and amend the power of attorney and instructions issued to the company's designated proxies **until the time specified by the Chair of the meeting in the context of voting at the Annual General Meeting on 3 May 2023**.

Here too, powers of attorney and instructions already issued may be amended or revoked at any time up to the aforementioned times. In the event of multiple declarations, the most recently received declaration shall take precedence; irrespective of this, an electronic grant of power of attorney and instructions via the Shareholder Portal shall always take precedence over a power of attorney and instructions granted by mail or e-mail, so that any other grant of power of attorney and instructions issued with the same shareholder number shall then be invalid, irrespective of the time of its receipt.

If separate votes are held on a single agenda item without this having been notified in advance of the virtual Annual General Meeting, an instruction issued for this agenda item as a whole will also be deemed to comprise a corresponding instruction for each of the separate votes.

Please note that the company's designated proxies cannot accept instructions regarding procedural motions in advance of or during the virtual Annual General Meeting. Similarly, the company's designated proxies cannot accept orders or instructions regarding requests for information or other requests, motions, nominations, statements, speeches or the

lodging of objections against resolutions of the Annual General Meeting.

Procedure for voting by postal vote

Shareholders may cast their votes by postal vote. Only those shareholders who are entered in the share register on the date of the virtual Annual General Meeting and who have registered in due time according to the conditions specified above under “**Registration for the virtual Annual General Meeting**” are eligible to exercise voting rights by postal vote. Postal votes and amendments or revocations of postal votes may be submitted by no **later than 2 May 2023, 24:00 (CEST) (time of receipt)** by mail or e-mail using the reply form enclosed with the registration documents to the address or e-mail address stated above under “**Registration for the virtual Annual General Meeting**”, provided that proper registration has been made.

The **Shareholder Portal** is also available for this purpose at <https://hv-hannover-rueck.link-apps.de/imeet>, through which it will be possible to issue and amend powers of attorney and instructions issued to the company’s designated proxies **until the time specified by the Chair of the meeting in the context of voting at the Annual General Meeting on 3 May 2023**.

Votes already issued may be amended or revoked at any time up to the aforementioned times. In the event of multiple votes being received, the last vote received shall take precedence; irrespective of this, an electronic postal vote via the Shareholder Portal shall always take precedence over a vote cast by mail or e-mail, so that any other vote cast with the same shareholder number shall then be irrelevant, irrespective of when it was received.

If separate votes are held on a single agenda item without this having been notified in advance of the virtual Annual General Meeting, a vote cast on this agenda item as a whole shall also be deemed to be a vote cast for each of the separate votes.
